

(1978–2026) **THE  
ORIGIN**

**1978** It all started.

**1986** Breaking into solvent extraction.

**1989** In-house strength unlocked.

**1990** First global move

**1996** Europe + Middle East expansion

Multi-feed refinery commissioned **2000**

Community impact begins **2001**

**2008** In-house tech innovation

Southeast Asia entry + filter factory **2011**

**2015** Delivered 100TPD MCT plant, 15TPD output

**2015** Industry benchmark: FFA <0.1%

Commissioned Asia's largest 330TPD hydrogenation benchmark. **2017**

**2018** Latin America entry + 450 projects milestone

**2019** Mecklear filter removes wax without aids

**2022** India-made biodiesel milestone

**2023** Set up 10 biodiesel plants worldwide

**2024**

Delivered 100TPD castor derivatives plant, Gujarat

**2025**

Delivered 500TPD palm refinery, expandable to 700TPD, West Africa

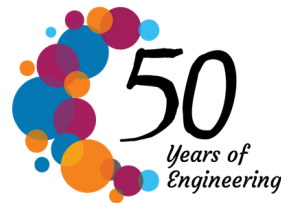

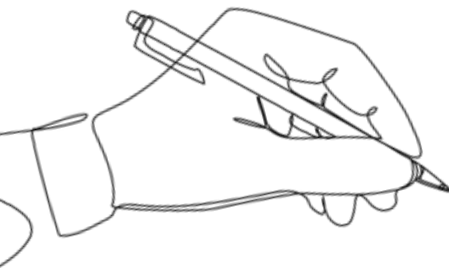

Supplied India's first 400TPD DDGS extraction plant

**2025**

Developed Turkey's first hazelnut refining tech, FFA to 0.05%

**2026**

Reduced biodiesel catalyst to 9.5kg/ton with pressurized tech
